---

## Summary

Versatile Software Developer skilled in **frontend and full-stack development** with hands-on experience through internships at Dialogues Media and HCL. Proficient in **React.js, Node.js, MongoDB, and MySQL**, with a strong interest in **cloud and database systems**. Enthusiastic about **Japanese culture and language** (currently learning Japanese, JLPT N5 level) and eager to contribute in **cross-cultural and global technology environments**.

---

## Education

**Sanjivani University** | Kopargaon

*Bachelor of Technology in Computer Science* — 2024 – 2027 (CGPA: 8.57)

**Gautam Polytechnic Institute** | Gautam Nagar

*Diploma in Computer Science* — 2024 (79.96%)

**Shree Chhatrapati Shivaji Vidyalaya** | Kolpewadi

*Secondary School Certificate (SSC)* — 2020 (79.20%)

---

## Skills

**Technical Skills:** C++, Java, JavaScript, HTML/CSS, React.js, Angular, Node.js, Spring Boot, MongoDB, MySQL

**Tools:** Code, Postman, Eclipse, Google Collab.

**Soft Skills:** Leadership, Teamwork, Communication, Project Management

---

## Projects

**Outage Management System** – React.js, Node.js, MongoDB

- Designed and developed a full-stack web app for reporting and managing electricity outages.
- Implemented real-time outage tracking with a user-friendly React frontend and a scalable Node.js + MongoDB backend.

- Enhanced efficiency by reducing outage reporting time by 40% and enabling faster resolution of power issues.

### **MSRTC Bus Pass System** – Research & Development, Web Application

- Developed a digital solution for issuing and managing student bus passes.
- Digitized the public transport pass system, reducing manual paperwork by 70% and improving accessibility for students.

### **Attendance Management System** – IoT (Routers + Wi-Fi Authentication)

- Built an IoT-based solution that automatically marks student attendance when devices connect to a predefined Wi-Fi network.
- Eliminated manual attendance processes and reduced errors by 80%.
- Reduce Attendance Proxy by 99%.

### **Website with 3D Module Viewer** – HTML, CSS, .glb files

- Created an interactive website with 3D model visualization using .glb files.
- Provided immersive experiences for users by integrating 3D objects directly in the browser, increasing engagement.

### **Air Quality Checker** – IoT, React.js, Node.js, Smoke Sensor

- Designed a system to monitor air quality using smoke sensors.
- Displayed real-time air pollution data via a React-based dashboard with Node.js handling sensor communication.
- Enabled proactive alerts, contributing to improved awareness of air quality levels.

---

## **Internships**

### **Dialogues Media** | Kopargaon, India

*Frontend Developer Intern*

*June 2025 – September 2025*

- Built and maintained **responsive React.js applications** to improve client engagement.
- Collaborated with UI/UX designers to implement modern design principles and ensure cross-device compatibility.
- Enhanced code quality and maintainability by applying **best practices in frontend development**.
- Gained real-world exposure by working on a **live client project**.

### **HCL** | Kopargaon, India

*Full-Stack Developer Intern*

*May 2025 – July 2025*

- Contributed to the development of an **Outage Management System** using React.js, Node.js, and MongoDB.

- Explored and applied technologies such as **Angular, Spring Boot, MySQL, and MongoDB** for backend and database management.
  - Learned **cloud deployment and server management basics**, aligning with industry practices.
- 

## CERTIFICATES

- **Fundamental Algorithms: Design and Analysis** – NPTEL (IIT Online Certification)  
*Learned algorithm design techniques, time complexity analysis, and problem-solving strategies.*
  - **Java Fundamentals** – Oracle Academy  
*Covered object-oriented programming (OOP), core Java concepts, and hands-on coding practices.*
- 

## ACHIEVEMENTS

- **DIPEX 2025 (State Level Project Presentation Competition)**  
Presented the **MSRTC Bus Pass Management System**, earning recognition for innovative problem-solving and system design.
  - **Internal Smart India Hackathon 2025**  
Selected to present the **Student Attendance Management System** at the college level, demonstrating practical application of an node.js and networking in education.
- 

## Languages

- Marathi – Native
  - Hindi – Fluent
  - English – Professional working proficiency
  - **Japanese – Beginner (Currently learning)**
- 

## Co-Curricular Activities

- **Ohayo Japan Event – Sanjivani University**  
Participated in a cultural exchange program showcasing **Japanese and Indian traditions**, fostering cross-cultural understanding.
- **Obon Matsuri Presentation – Sanjivani University**  
Delivered a presentation during the **Obon Festival event**, highlighting Japanese culture and strengthening communication skills in an intercultural setting.
- **E-Cell Workshop (IIT Bombay) – Sanjivani University**  
Attended an **Entrepreneurship & Innovation workshop** conducted by IIT Bombay's **E-Cell team** at Sanjivani University, gaining exposure to **start-up ecosystem and innovative business practices**.
